What reviewers are saying...

The Lightscoop™ “produces nuanced, natural, flattering light on your subject; the before-after difference is incredible.” — *David Pogue, New York Times*

“I was stunned by the difference. Yes, it does work!”

— *Terry White's Tech Blog*

“...a dandy little accessory to mitigate the generally appalling look of direct, flash-lit photographs...”

— *Camera Hobby*

Users love it

“The Scoop is a great product! I bought it for my son, and he loves it. Used it right out of the box and got great shots. Candid looks like lit portrait shots. Amazing!”

— *Cass Collins*

“Based on quality of the Lightscoop, we are buying a second one as a gift for another family member. We used it immediately after delivery and could easily notice the remarkable difference in the photo quality.”

— *Joe Gee*

Direct Pop-up Flash

Wall bounce w/ Lightscoop™

Professor Ken Kobré, author of “Photojournalism: The Professionals’ Approach,” has educated a generation of professional photographers.

Now the Prof has packed the Professionals’ Approach into one simple-to-use lighting aid for everyone else.
